

To whom it may concern:

I believe that the Governors Scholarship is significantly beneficial because it helps students like me to further our education. The scholarship gives ambitious students the ability to be able to afford their college tuition. It also leaves no excuse to not be enrolled in school because you don't have the funds to participate. It may not be enough for the full tuition but it helps out. Every little penny counts. Most important of all it feels good to know that you get rewarded for your great work in school with maintaining decent grades to receive money from our Government to help with school fees. The money can also be used for books so that we don't have to pay out of pocket for expensive books. I am very thankful for my scholarship and I hope to receive this scholarship yearly.
